Preface

These indexes are cumulations of the monthly indexes from the 1981 volume of Chemoreception Abstracts.

The **Subject Index** is compiled in the following way. For each document the indexer selects indexing terms from fixed lists of keywords which are continually updated. From these selected terms word chains are constructed, the word order being determined by the indexer. It is these word chains which make up the **Subject Index** entries.

The index terms used to create the **Subject Indexes** plus additional terms selected by the indexer to further describe and define the document are also present as a search tool in the IRL database.

The following conventions apply to all terms used in the **Subject Index**:

- (1) Latin binomials are used for all taxonomic terms except domestic animals, livestock and pets.
- (2) Enzyme names follow the 1978 recommendations of the IUPAC and IUB.

Back volumes/microfilm editions

Back volumes are available for all IRL journals more than one year old. It is the policy of IRL however to allow to go out of print (OP) volumes more than five years old. While stocks remain prices for printed back volumes are quoted by the Publisher. All volumes declared OP are maintained on microfilm masters from which duplicates are available.

IRL database products

The above abstracts journals contain over 130,000 abstracts per annum. Computerisation of the abstracting process in 1978 has created a database suitable for on-line searching. The database containing all the above abstracts journals except Aquatic Sciences and Fisheries Abstracts is available on Lockheed DIALOG as file 76, the IRL Life Sciences Collection. Aquatic Sciences and Fisheries Abstracts is available separately as File 44. Other IRL database products include: searchable tapes of the entire database or of subsets consisting of the medical group of IRL abstracting services or of individual journals; weekly Current Alert profiles on selected topics; personal SDI or retrospective searches; bibliographies.

Other publications

IRL Press Ltd publishes several learned journals, conference proceedings and practical handbooks in the biological and medical sciences. A full list of titles is available on request from your nearest Information Retrieval office.

IRL PRESS LTD ANNOUNCE AN AUTHORITATIVE NEW INTERNATIONAL JOURNAL TO BE PUBLISHED FOR
THE EUROPEAN MOLECULAR BIOLOGY ORGANIZATION

The EMBO Journal

to be published monthly starting 1982

Executive Editor: John Tooze

European Molecular Biology Organization, Postfach 1022 40, 6900 Heidelberg 1, Federal Republic of Germany

CONTAINING SIGNIFICANT ORIGINAL RESEARCH IN MOLECULAR BIOLOGY AND RELATED AREAS

features:-

- Fast publication – manuscripts to be typeset and published within 12 weeks of acceptance.
- No page charge levy.
- An estimated 2000 pages in Volume 1, including an annual author and subject index in the last issue of the volume.
- Issues mailed by air to non-European subscribers.
- Reduced personal subscription rates for EMBO members and others who declare the journal is for their personal use.
- All manuscripts will be submitted through an EMBO member who will be responsible for their scientific standard. Each member may contribute or communicate on behalf of scientists who are not members a maximum of 5 papers per year. All papers will subsequently be subjected to normal refereeing procedures.

EMBO, following a ballot amongst its members, is convinced that the European contribution to molecular biology merits a flourishing and fully competitive international journal based in Europe. Thus, both EMBO and the publishers are guaranteeing rapid publication with commensurate high standards of production and printing.

Publishing the journal under the auspices of EMBO will ensure not only the high quality of communications but also prompt and expert refereeing by the best molecular biologists in Europe.

A special 16-page booklet is now available containing additional information on The EMBO Journal and the history of the European Molecular Biology Organization. This is typeset,

printed and bound in the same style and format as the journal itself. Full instructions to authors and subscription information are included. Use the coupon below to obtain your free copy.

Annual subscription price for libraries and other multi-user institutions: £155/US \$310.
